

Radio Station K-LOVE is my favorite Christian radio station. It serves not only myself in Fresno, California at 91.1 but also my relatives in Coalinga who get a repeater service so they can tune in. If K-LOVE were to be displaced by another Low Power Frequency Modulation (LPFM) broadcaster who provides other programming, I and members of my family would be devastated. I believe K-LOVE provides an important service in the public interest by providing Christian entertainment in a world bombarded with secular programming - some of which is not suitable for children. It also has brought many people who would otherwise be sinning and leading unhealthy lives to Jesus Christ, our Lord and Savior. It is by far the cleanest and healthiest radio station I have ever listened to in my 48 years on this earth.
